

TRUELIGHT È UNA FAMIGLIA DI PARETI INTERNE MOBILI CON SOLA FUNZIONE DI SEPARAZIONE. TL60 È LA MONO LASTRA CLASSICA. TL41 E 42 SONO LE VERSIONI A GUIDA RIDOTTA, MONO LASTRA E DOPPIA LASTRA. LE PARETI, DI SPESSORE 50 MM E 35 MM, SONO COSTITUITE DA PROFILI ESTRUSI IN ALLUMINIO PREDISPOSTI PER ACCOGLIERE PANNELLI DI CHIUSURA IN VETRO DI SICUREZZA, PANNELLI SPECIALI IN VETRO E LEGNO O TESSUTO, PANNELLI IN LEGNO NOBILITATI. I PROFILI SUPERIORE E INFERIORE CONSENTONO IL PERFETTO LIVELLAMENTO DELLA PARETE E POSSONO ACCOGLIERE VETRI STRATIFICATI 10/11 MM O 12/13 MM. LA SIGILLATURA DEI VETRI, ALL'INTERNO DEI PROFILI DI CONTENIMENTO, È ASSICURATA DA GUARNIZIONI IN MATERIALE PLASTICO. LE GIUNZIONI TRA ELEMENTI VETRATI, LINEARE O AD ANGOLO VARIABILE, SONO GARANTITE DA PROFILI IN ALLUMINIO, IN POLICARBONATO TRASPARENTE O DA BIADESIVO CRISTALLINO. LE PORTE SONO DISPONIBILI NELLA TIPOLOGIA A BATTENTE O SCORREVOLE, AD ANTA SINGOLA O DOPPIA IN VETRO O LEGNO, E POSSONO ESSERE FORNITE SIA AD ALTEZZA STANDARD SIA A TUTT'ALTEZZA.

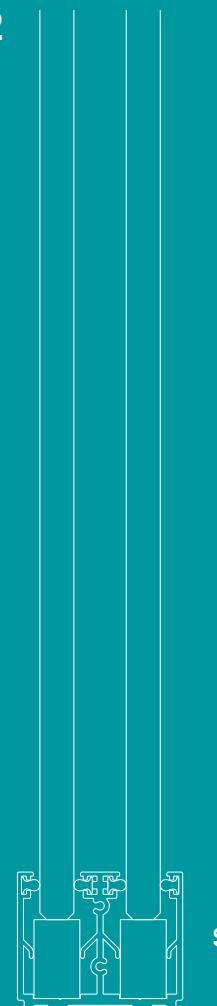

Truelight is a range of interior demountable partition walls with separating function. TL60 is the classical single-glass system. TL41 and 42 are the versions with small track, single and double glass. The partitions, 35 mm thick, are made of extruded aluminum profiles designed to house safety glass panels, special glazed panels with wood or fabric, veneer coated panels. Top and bottom tracks allow the perfect leveling of the partition wall and can house 10/11 mm or 12/13 mm laminated glasses. The fixing of the glasses inside the tracks is provided by plastic gaskets. Connections between glass elements, linear or with variable angle, are guaranteed by profiles in aluminum, transparent polycarbonate or in crystal clear double-sided tape. Doors are available in hinged or sliding type, with single or double leaf in glass or wood, and can be provided in full-height version too.
