Upholstery

Kvadrat collection

**Please, note that seat upholstery is available as an optional feature.

With its no-nonsense functionality and versatile appearance, Twist stack stool meets the needs for occasional seating in social spaces. The tubular steel frame adds a notion of lightness, while the subtle curvature of the PET Felt seat offers proper seating comfort. Thanks to their light weight and double-sided grip, the stools can be stacked when extra space is needed, and easily moved around to adjust the setting to your needs.

Product overview

Care & Maintenance

Due to its porous structure, PET Felt can be easily cleaned with water. To remove most stains, it is sufficient to apply a copious amount of water and let it drip through. Do not rub the PET felt surface to avoid excessive pilling. If water is not sufficient, stubborn stains can be removed with professional cleaning products like the James cleaning set.
