Zermatt table

Zermatt

Table Screen

Zermatt - a desk screen that creates divides without feeling static. The screen's embracing design creates a particular feeling of spaciousness for better focus. When multiple desk screens are put together, the result is a dynamic and undulating landscape from a variety of individual desktop heights.

Zermatt is available as a one-piece front and side screen or only as a front screen, and can be adapted to desks from 1200-1800 mm

DESIGN

Zermatt a desktop screen that creates privacy without feeling static. The screen's embracing design creates its own spaciousness for better focus.

When several desktop screens are grouped, a dynamic and undulating landscape arises through the variation of individual desktop heights.

At the same time, the screens dissolve the importance of having all desk heights at the same level to create horizontal lines. The inspiration comes from the aerial perspective and the beautiful layered effect that occurs when the light is dimmed.

Zermatt comes both as a rear and side screen in one piece or only as a rear screen and can be adapted to desks from 1200-1800 mm.
