<i>CRI</i>	>80
<i>Luminous flux</i>	1850 Lm
<i>IP rating</i>	IP54
<i>Dimmable</i>	Yes (trailing edge)

With its generous dome shape and graphic expression, Fost Lamp offers a combined solution for acoustics and illumination. The PET felt lampshade has a soft texture and a bold ribbed pattern on the outside, while the inner surface features contrasting white fabric. Enveloping the LED module, the fabric gently disperses the light down, granting an inviting sensation of privacy and calmness.

Product overview

Care & Maintenance

For regular care, we recommend dusting or vacuuming PET Felt occasionally. Most stains can be easily cleaned with water. It is advised to dab the contaminated surface with a dry cloth while it is wet. Do not rub PET Felt to avoid excessive pilling and let the material dry naturally. If water is not sufficient, stubborn stains can be removed with professional cleaning products like the James cleaning set.
