Season Sofa

Designed by Piero Lissoni

Catalogue - EN

2015

Piero Lissoni

Piero Lissoni has studied Architecture at the Politecnico di Milano and on graduating in 1985, he begins collaborating as designer and Art Director with furniture manufacturers Boffi, Living Divani and Porro.

In 1986 together with Nicoletta Canesi, Piero Lissoni opens the studio Lissoni Associati; in 1996 they create Graph.x to develop graphic projects.

The work of the studio embraces architecture, graphic and industrial design projects, ranging from furniture, accessories, kitchens, bathroom and lighting fixtures to corporate identity, advertising, catalogues and packaging. Interior design projects include hotels, showrooms, trade stands, private houses, shops and yachts.

SEASON

Unexpected details

Collection designed by Piero Lissoni, 2011

Designed by Piero Lissoni, the Season collection represents the balance between simplicity and a carefully thought design.

We know that clear and defined forms penetrate the mind faster and longer. This is where we find the real reason for the existence of contemporary design. The modular parts make the work of the interior designer easier. This is so because there is

nothing like having total freedom when it comes to creating a space. There is nothing like playing with the silhouette of different objects, like creating relaxed and flexible environments in which to promote collaboration. Each and every element that makes up the Season family has been born from surprising and unexpected details.

“The modular parts make the work of the interior designer easier. This is so because there is nothing like having total freedom when it comes to creating a space. There is nothing like playing with the silhouette of different objects, like creating relaxed and flexible environments in which to promote collaboration.”

Season *Sofa*

2017 — Halfway between rationalism and sensuality, the Season sofa is in line with the rest of the collection designed by Piero Lissoni. It is composed of two rounded volumes: a cube and a vertical rectangular piece, capable of generating a suggestive geometric play.

It offers 3 different versions that can be perfectly combined with each other and in a totally intuitive way: the modules can be straight, open or closed. In addition, just like the chair in the collection, it includes a washable technical fabric protection for the area that is most exposed to the footwear. Is there a better offer?

On these pages a composition of Season sofa, Burin Mini, Season Pouf, Season chair and Ace Lounge chair

With Season, you can configure disruptive compositions with its 3 different modules, especially practical to design kind waiting zones, lounging spots and reception halls. The protection band located at foot height is optional, but very useful to

extend its lifecycle in areas with severe traffic such as restaurants or airports. Get inspired with our established configurations, but you can play and design as many different layouts as you require.
